

The Library operates much like the Parks and Recreation Commission, they have their own separately elected board and their own 1 mill voter approved millage. The Library board is made up of six members and the Director who make decisions regarding the budget and long-term planning.

The library offers many new electronic services that allow them to ship books in from other libraries as well as manage their own inventory. Through the summer Holly Township library does offer many youth activities, including reading and performances.

For more information you can visit the Holly Township Library Website by [clicking here](#) .
